2 Registration and Accreditation

2.1 Delegation Registration Process

The Delegation Registration Process (DRP) process is the official registration process for all NOC delegations attending the EYOF Bakuriani 2025 and is conducted through the Accreditation System – PASSPORT.

Within PASSPORT NOCs will submit their Final Entry by Number (FEN) and use the system for inserting members' data. Accreditation functionality is part of PASSPORT with which NOCs will register their NOC members on the Long List. For successful DRP NOCs will complete their Sport Entries for athletes and finalize their NOC Delegation Short List by Name. Unless the NOC has completed the DRP, members of NOC Team Delegations will not be accredited, and therefore not entitled to participate in the EYOF 2025.

Conditions for participation and nationality of competitors are described in detail in the [EYOF Charter](#), Rule 3. Please refer to CdM and Accreditation Manual for more information about categories, quotas, policy, privileges etc.

For questions regarding DRP please contact NOC Relations at nocservices@eyof2025.ge.

2.1.1 Steps of DRP

1. Final Entry by Numbers: FEN is open in the "Passport" system, the process is running successfully, and the deadline is 9 October 2024.
2. Long List: NOCs will have the opportunity to enter their delegation members from 11 November 2024 to 10 January 2025.
3. Short List & Sport Entries: Entry by Name will open after Long List and NOCs will need to shortlist their participants by 27 January 2025.
4. Final Confirmation: Within online DRMs and Introductory Meetings NOCs will need to confirm their Short List and Sport Entries by 7 February 2025.
5. Late Athletes' Replacement: From 28 January 2025 and up until the first Team Captains' Meeting NOCs can make a permanent replacement due to medical or exceptional circumstances.

After 27 January 2025 deadline, PASSPORT will close.

2.1.2 Sport Entries

Sport Entries is part of the Short List process for athletes where NOCs enter Short List and Sport Entries data and the athlete's assignment to sports discipline(s) must be recorded for each athlete via Passport.

Only athletes nominated by their NOC and with a valid FIS code are allowed to participate. The athletes must fall within the age range established for EYOF 2025 (see the [11.4.2.1 Competition Program](#)).

Specific Sport Entry data is valid FIS code.

2.1.3 Late Athletes Replacement (LAR) and Withdrawals

In case of injury, urgent medical problems, or other exceptional circumstances, it is possible to make Late Athlete (LAR) or Official (LOR) Replacements or Withdrawal. Athletes may be replaced by substitutes only in the same sport, discipline and gender event, and official within the SDO quotas.

Late Athlete or Official replacement would be possible, if:

- Substitute (replacement) athlete is eligible to take part in the EYOF 2025.
- Substitute (replacement) athlete or official stands in the delegation Long List.
- LAR is possible until the first Team Captains' Meeting, 9 February 2025, and LOR is possible until the Introductory Meeting.

Please find more information in the LAR / LOR policy on [Extranet](#), where also applicable forms are available.

Please note that LAR is not possible if the date of birth is not according to SDO. Technical delegates will check birth and nationality data at TCM.

Replaced athlete or official must leave the AVL and the participation fee will not be reimbursed if a withdrawal occurs.

3 Transport

3.1 Arrival and Departure

3.1.1 Travel by Air

The official entry points are Tbilisi International Airport, Kutaisi International Airport, and Batumi International Airport. The OC will provide free transportation for all accredited people between the official airports and AVLs.

Please refer to the CdM Manual for more detailed information. However, please find below a few important steps:

- At respective airports (Tbilisi, Batumi, Kutaisi) NOC delegations can use dedicated Passport Control Booths (EYOF 2025 branded).
- After passport control, the Information Desk with OC staff located at the airport in the luggage pick-up area will ensure smooth transportation to Bakuriani.
- Personal luggage will be transported with participants, while oversized baggage for sports will be collected at the assigned airport location by the delegates and transferred to the parking area to respective trucks in front of the Airport.
- At departure and upon arrival at the designated airport, delegates are responsible for collecting their personal luggage from the vehicles. NOCs should ensure that all personal belongings and sports equipment are retrieved before proceeding to the terminal. NOCs then head to the EYOF 2025 branded check-in counter, complete the check-in process, go through security clearance and go to the departure gate for the scheduled flight.

3.1.1.1 Transport of Sports and Other (large) Equipment

There will be specific transport procedures for sports equipment and other large luggage by monitoring and counting to ensure safe and accurate transportation.

3.1.1.1.1 Luggage Labeling

NOCs should label the sports equipment and oversized luggage with a special sticker/label, which will make it easier to identify the luggage and transport it safely to the right destination.

The sticker/label are different from each other, each of them representing the specific destination, according to which it will be easier to divide, record, monitor, and make safe transportation. NOCs need to write on the sticker NOC name (Country) and Sport.

3.1.1.1.2 Handling Sport Equipment at Arrival

The following procedure is in force:

- Upon the arrival of the luggage at the airport, the amount of the oversized luggage arrived will be counted, recorded and signed by both parties, the NOC and OC; 1/3
Note: Oversized luggage will be delivered through a designated door. NOC members will personally handle their oversized luggage using trolleys, which will be available at the designated gathering points. At the airport exits, cargo trucks will be stationed for loading the oversized luggage. OC volunteers and the delegation representative will count the number of oversized luggage items.
- During the loading of luggage on the bus/truck the amount of luggage will be counted and recorded by the OC, after which the luggage will be loaded on the bus; 2/3
Note: Luggage will be loaded on the bus/truck if the amount of luggage corresponds to the number recorded upon arrival at the airport.
- At the destination the amount of luggage will be counted and checked against the existing luggage registration list signed at the airport, 3/3
Note: When the luggage reaches its destination, NCS will inform CdM about the arrival of the luggage and NOC can receive the luggage upon presenting the signed document provided to the NOC at the airport. If any issues arise, kindly contact the NCS team for assistance.

Arrival at the Destinations in Bakuriani

Upon arrival at the final destination, the luggage will be counted again by the NOC and OC representative and checked against the handover form signed at the airport. NOC representatives will be notified by the NCS team about the luggage's arrival and can collect it at the delivery location by presenting the signed document provided at the airport. Any discrepancies or issues should be reported immediately to the NCS team for resolution.

In the case of ALP, FRS and SBD, the oversized equipment delivery location is in AVL1 near the wax area building. Designated OC staff will assist with unloading and transferring oversized luggage to the wax area.

3.1.1.1.3 Handling Sports Equipment at Departure

Management of sports equipment at departure is based on A&D information from the NOCs.

Departure from the Destinations in Bakuriani

Following the conclusion of the final competition, NOCs will be responsible for packing their sports equipment to ensure it is properly secured and ready for transport. Participants are required to pack their equipment at the wax and storage cabins by 17:00 on 16th February or the latest by 12:00 on 17th February to ensure proper transport of the luggage to the airport. More details will be agreed based on the departure information of each delegation.

Once the packing is complete, the NOC representative will need to sign a form that will detail the number and content of the items being transported. The OC will then manage the loading of the equipment onto dedicated trucks at the competition venue. This process will be carefully coordinated to ensure the safe handling and transport of all oversized items.

The trucks will transport the equipment to the respective airport, where the OC will oversee the unloading process. A designated area at the airport will be allocated specifically for oversized luggage, serving as a central collection point for storing and organizing large items prior to departure. This area will be clearly marked and secured to ensure the safekeeping of all equipment until it is collected by delegations.

On the day of departure, NOC delegations will be responsible for retrieving their oversized luggage from the designated area using the form they signed at handing over the equipment at the venue. The OC will facilitate the handover process, ensuring that all items are accounted for and prepared for transport. Delegations must visit the designated area personally to collect their equipment, confirming receipt and assuming responsibility for their items before departure.

3.1.2 Travel by Road

Delegations need to drive to the AVL by themselves, and participants arriving with their own transportation are responsible for managing the transfer of large luggage, including sports equipment, to the designated venues. While assistance may be available upon request, the primary responsibility for the timely and secure transportation of equipment lies with the participants. This approach ensures streamlined logistics and minimizes potential delays.

To facilitate the smooth handling of sports equipment, the following guidelines have been established.

Handling Sport Equipment in Bakuriani:

- **Location:** At AVL1 for Alpine Skiing (ALP), Freestyle Skiing (FRS), and Snowboarding (SBD).
- **Delivery Timeframes:** Participants are required to deliver their equipment to the wax and storage cabins from 08:00 to 21:00 to ensure proper handling and storage.
- **Packing Timeframes:** Following the conclusion of the final competition, NOCs will be responsible for packing their sports equipment and are required to pack their equipment at the wax and storage cabins by 17:00 on 16th February or at the latest by 12:00 on 17th February.
- **Participant Responsibilities:** Participants must coordinate their logistics to ensure compliance with these delivery schedules. Proper planning will also facilitate smooth border crossings and transportation within Georgia, contributing to a seamless travel and event experience.

3.2 Local transport – Shuttle bus line

EYOF shuttle buses will ensure transfers for all accredited participants from the AVL1 to competition and training venues and the hotels. These buses will operate according to the defined training and competition schedules. If the competition is postponed for any reason, the bus schedule will be adjusted accordingly.

EYOF 2025 Route Network will start running with the 1st training session and will operate with frequency based on the training and competition schedule. The EYOF 2025 Route Network will stop running on 16 February 2025, the day of the CLOCER.

Exceptions will only be made for injured and ill athletes. If an athlete is ill or sick or has an injury and it prevents him/her going to the Main Dining Area, CdM or a proxy should fill out a form with the NOC Service Desk. With this form, then any delegation representative can take food and beverages to an injured participant.

7 Antidoping & TUE

7.1 Doping Control Rules and Program

The EOC has delegated the independent management of the anti-doping program to the International Testing Agency (ITA). The anti-doping program ensures the right of athletes to fair and clean competition, and since at EYOF many young athletes have their first experience with doping control procedures, it will be carefully planned and implemented. Doping control and anti-doping education will be part of EYOF 2025, and please read more about at <https://www.eurolympic.org/clean-sport/introduction-to-anti-doping/>.

7.2 Medication Use and TUE

All Athletes and Athlete Support Staff must be familiar with the [Prohibited Substances and Methods List](#), which is valid from 1 January 2025. If an Athlete has diseases or conditions that require the use of medications that are prohibited, the Therapeutic Use Exemption (TUE) may grant him or her permission to take the required medication. Athletes and their support staff must be aware of the EOC TUE recognition process and the TUE application process (<https://www.eurolympic.org/clean-sport/therapeutic-use-exemption-process/>).

In particular, the ITA ITUEC (TUE Committee) will automatically recognize TUEs previously granted by your National Anti-Doping Organization (NADO) and IFs for purposes of the EYOF 2025 without the need to review the relevant clinical information. If the TUE is correctly entered in the Anti-Doping Administration and Management System (ADAMS), there is no need to contact the committee. Nevertheless, should an athlete require confirmation, NOC can submit the request to the ITA at tue@ita.sport in writing quoting athlete's ADAMS TUE reference number. All TUEs need to be submitted and approved by NADO by 8 February 2025, and from 9 February ITA will manage the TUE program with the support of over 20 medical experts forming the ITA International TUE Committee (<https://ita.sport/ituec/>). Please note that for substances prohibited in-competition only, you should apply for a TUE at least 30 days before EYOF 2025, unless one of the exceptions on retroactive TUEs apply.

At all times, athletes are strongly advised to check the status of the medications they are using or considering using with their team doctors. If, during the EYOF 2025, further clarification is required, the athlete should check with the NOC Medical Officer(s).

7.3 Whereabouts

An effective Out-of-Competition testing program is essential in the fight against doping in sport and depends on accurate and complete Athlete Whereabouts information.

Within EYOF such activity has more educational value and since the majority of athletes are not part of ADAMS, OC will give ITA the allotment locations of all NOCs from the date of arrival to the date of departure once allotment process is finished.

7.4 Doping Control Stations

Doping Control Stations (DCS) in Bakuriani will be located in the AVL1, Crystal Hotel. All doping control samples will be conducted in separate processing rooms providing the required privacy and confidentiality for athletes and security for the doping control procedures. DCS will comply with all provisions set out in the EOC Anti-Doping rules and the World Anti-Doping Code.

7.5 Doping control procedure

The ITA will plan and implement all doping control procedures according to the EOC Anti-Doping rules, the World Anti-Doping Code and the International Standard for Testing and Investigations (ISTI).

The doping controls will be carried out with no advance notice. Upon notification of doping control, the athlete will be required to present himself/herself immediately at the DCS, unless the Doping Control Officer (DCO) gives the athlete permission to postpone the doping control for the reasons set out in the ISTI. More information is available in the Anti-Doping Manual.

7.6 Collection of Samples

Collected samples will be analyzed in an accredited laboratory of the World Anti-Doping Agency in the Institute of Biochemistry - German Sport University Cologne, Germany.

Responsibility for sample collection has been delegated to the Georgian Anti-Doping Agency (GADA). According to the EOC Anti-Doping Rules and the International Standard for Testing and Investigation (ISTI) athletes may undergo doping control at any time and in any place during the entire period of the EYOF 2025. Urine and blood tests are possible, so athletes must be familiar with both doping test procedures and their rights and responsibilities during doping control testing. Minor athletes should be notified in the presence of an Athlete Representative (who is not minor) in addition to the DCO/chaperone and may choose to be accompanied and observed by a representative throughout the Sample Collection Session. Bottled water and soft drinks will be available for athletes at the DCS, but no food. The athletes' representative or support staff member can bring food for the athletes if needed. After compilation of the doping control session, athletes and representatives will be provided with transportation to accommodation from the doping control location.

7.7 Anti-Doping Education Program

The ITA and GADA will deliver onsite clean sport training workshops during EYOF 2025. All athletes and athlete support personnel are encouraged to participate in educational activities.

7.8 Reveal

Athletes and Athlete Support Personnel play a key role in protecting the integrity of sport. Any reasonable grounds for suspecting doping can be reported through [REVEAL](#), the ITA whistleblowing platform.

REVEAL enables anonymous reporting in a secure manner while actively supporting the investigation of Anti-Doping Rule Violations or criminal behavior. All information is treated confidentially and in a sensible manner. You can report anything that you have seen, heard or experienced and every piece of information is important – no matter how small!

8 Media & Mixed zone

8.1 Media Center, Rooms and Mixed Zones

The Main Media Center is located in “Bakuriani Inn” in Bakuriani, where also media hotel is located.

At the venue, media can use media room for work, and photographers' positions will be specified, and they need to be in contact with venue team in order to follow correct behavior.

There is also a Mixed Zone at the sports venue. Access will be granted to photographers or journalists and videographers with the appropriate accreditation.

8.2 Press conferences and Media Briefings

Additional information about services, operation dates and hours, media briefings and press conferences and daily highlights will be provided in the Media Info Package.

9 Athlete Safeguarding

OC has within the requirements of the EOC Safeguarding Policy and close collaboration with IGNITX created EYOF Bakuriani 2025 Safeguarding Legal Framework that will be in effect at the time of the event.

Concerns regarding transgressive behaviour can be reported anonymously via the special whistleblower line <https://be-safe.ge/> and email be-safe@eyof2025.ge.

If you prefer to report a transgressive behaviour incident directly to the EOC or other forms of ethical concern, the following non-anonymous email ethics@eurolympic.org can be used with this purpose. Trained Safeguarding Officer will be available anytime for direct support and consultations, when required.

During the EYOF 2025 there may be delays, postponements or cancellations of the competition program. Should this occur, NOCs will be informed of the revised schedule online and via dedicated sports WhatsApp group.

10.2 Information service – start lists, results, data and timing

Timing & Scoring is provided by Atos, and centralized results services will be implemented. All start lists, all relevant sports data and the latest results lists will be available during the races, at the race/competition office and immediately after competition on the EYOF 2025 website at <https://www.eyof2025.ge/> and Mobile App (Eurolympic app).

10.3 Sport information desks

The Sport Information Desk (SID) is at the competition venue. The SID is accessible with No. 2 on an accreditation card and is open daily from 7 to 17 February 2025 from 7:00 to 22:00.

SID will provide information on all start lists, the latest results, schedules, weather and other sports-related matters. Per the EYOF 2025 green policy, no (or limited) hard copies for NOCs will be available in the venues or SID, since all information is available on the official EYOF 2025 website www.eyof2025.ge.

10.4 Weather information

Weather information will be available at the SIDs. Furthermore, the weather for the following day will be announced at the TCM.

10.5 WhatsApp group

OC has opened WhatsApp (WA) group, which will operate during EYOF 2025, and Team Captains/Leaders will get all the information and updates from the WA group. This will be during EYOF 2025 one-way official communication from EYOF 2025 OC side, and we ask Team Officials to register with the group to receive the latest information.

10.6 Radio frequency registration and assignment

VHF or UHF radio frequencies are licensed and coordinated by the Communication Commission of Georgia. However, not every two-way radio has to be licensed; some can operate on specific, license-free (PMR446) frequencies.

License-free (PMR446) frequencies:

- PMR stands for Personal Mobile Radio.
- License-free radios are generally lower-powered, handheld radios with a maximum power output of 0.5 watts.

- PMR446 frequencies are only allowed to be used by lower-powered, shorter-range license-free radios. It's highly illegal to program a higher-performing business radio to these frequencies – these are supposed to operate under a Communication Commission license.

Licensed professional frequencies:

We recommend NOCs to use license-free frequencies, but if teams want to use professional, higher power radios, NOC can fill [FREQUENCY REQUEST FORM](#) and send it to mail at post@comcom.ge by 16 December 2024. Please click [more](#) about prices and rules.
